Report on Voters Registration Drive

The primary objective of the Electoral Literacy Club (ELC) is to sensitize the student community about their political rights which includes the right to vote in elections. Accordingly, ELC of our college conducted a Voter ID Registration Drive from 17/12/22 to 23/12/22 for our students who were above 18 and not yet registered as voters. We selected 10 volunteers and trained them prior on how to register for Voter ID using the 'Voters Helpline' App. Then the trained volunteers helped other eligible students to register for their Voter IDs. In our college ELC identified 249 students who were eligible for voting but not enrolled in the electoral roll. ELC has registered the maximum number of students as voters and aims to achieve 100% enrollment of all students by January 25th 2023.

ELC is co-ordinating with SVEEP and BBMP for the enrollment procedure.
